- ✓ Need to report a street light outage? Go to <https://www.dominionenergy.com/outages/streetlight-outages>. You will need to have the location and the pole number to make the report.
- ✓ We are still looking for people to revive and continue the work of the Stormwater Management Committee! Our neighborhood has multiple locations where erosion and water damage continue, and we need help tracking and fixing all of these sites. Contact any Board member to volunteer for this important committee.
- ✓ Do you have a great contractor whose contact information you are willing to share with the neighborhood? Please let the ACC know -- they are compiling a list to share with the community.
- ✓ The Reservation Drive traffic calming study is ongoing. Members are currently trying to finalize options and placement of potential traffic calming measures.
